Senator Sue Shink Chair Senate Committee on Natural Resources and Agriculture  
P.O. Box 30036  
Lansing, MI 48909-7536

Dear Chair Shink,

The League of Women Voters of Michigan urges you to hold a hearing and a committee vote on the bill to Amend the Public Health Code to require statewide regulation of Septic Systems, Senate Bill 299.

Michigan is the only state in the nation that lacks a statewide septic code that sets minimum standards for construction, operation, and maintenance of septic systems.

It is estimated that thirty percent of Michigan residents use septic systems to dispose of their waste—higher than the 20% national average. And a quarter of our estimated 1.4 million septic tanks are likely leaking billions of gallons of human waste onto our land, our lakes and streams, and into our drinking water.

The League of Women Voters supports statewide regulation of septic systems to protect our drinking water, our natural resources and our environment.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Paula Bowman".

Paula Bowman, Co-President
